QUANTITATIVE & FINANCIAL RESEARCH PROJECTS

ML-Enhanced EMA Crossover Trading Strategy | *Advanced Hedge Fund Strategies — Johns Hopkins*
Baltimore, MD • May – Aug 2025

- Developed a multi-asset quantitative trend-following strategy in Python integrating EMA crossover signals with a Random Forest confidence filter, achieving Sharpe ratios of
- Engineered features from 12 technical indicators — selecting 14-day RSI, 20-day Z-score, and 10-day momentum — applied across equities, bonds, commodities, and FX.
- Constructed a dollar-neutral portfolio framework to eliminate market beta exposure, enforce risk controls, and reduce turnover, aligning with hedge fund-style execution standards.

Equity Research Report — Lowe's Companies, Inc. (NYSE: LOW) | *Financial Modeling & Valuation — Johns Hopkins*
Baltimore, MD • Jan – May 2025

- Built a 5-year financial model forecasting revenue, operating margins, free cash flow, and key financial statements to evaluate Lowe’s future performance.
- Performed DCF and comparable-company valuation and analyzed business strategy, liquidity, capital allocation, and industry conditions to develop an equity valuation.
- Ran Monte Carlo simulation for sensitivity analysis to quantify downside risk from tariff uncertainty, inflation and other macroeconomic assumptions, confirming valuation robustness across scenarios.

CFA Institute Research Challenge — Franklin Templeton | *CFA Society Baltimore & Washington D.C.*
Baltimore, MD • Nov 2024 – Feb 2025

- Conducted fundamental equity research on Franklin Templeton, analyzing financial statements, profitability, operating performance, and business strategy.
- Used DuPont analysis and financial ratio analysis to evaluate changes in profitability, returns, and operating efficiency over multiple fiscal years.
- Assessed the impact of ETF adoption, fee compression, executive compensation, and changing investor preferences on revenue growth, margins, and valuation forecasts.

PROFESSIONAL EXPERIENCE

Financial Tax Analyst | *Tax Magic Inc.*
Hayward, CA • Dec 2025 – Present

- Prepared and reviewed 100+ individual and small business tax returns, performing financial analysis to identify deductions, credits, and tax-efficiency strategies that optimized client outcomes.
- Analyzed client financial statements and documentation to assess income, liabilities, and deduction eligibility — applying structured financial review processes consistent with analyst workflows.
- Ensured compliance with federal and state tax regulations, managing risk exposure and maintaining meticulous documentation standards for sensitive financial data across a diverse client base.
